AMENDMENT UNDER 37 CFR 1.115

ASSISTANT COMMISSIONER OF PATENTS Box 1450 Alexandria, Virginia 22313-1450

Dear Sir:

In response to the Official Action mailed February 27, 2004 and having a statutory period for response set to expire on May 27, 2004, please amend the above-identified application as follows.

In the Specification:

Please replace the paragraph at page 3, lines 9-20, with the following rewritten paragraph:

The invention relates to a process for producing bonded activated carbon structures. The improved process comprises (a) preparing a substantially homogeneous particulate mixture by combining 70.5 to 95.30 weight percent, based on the total weight of the mixture, of a polyolefin resin powder having an average particle size between 5 and 125 microns and 5-.70 to 30.95 weight percent, based on the total weight of the mixture of a particulate activated carbon; (b) introducing the particulate mixture prepared in (a) into a microwave transparent container;

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the U.S. Postal Service as first class mail on the date indicated below in an envelope addressed to the Assistant Mail Stop: No-Fee Amendment, Commissioner of Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

Date: MAY 20, 2004

(c) exposing the container containing the particulate mixture to microwave radiation to increase the temperature of the activated carbon particles 3 to 30°C above the crystalline melting point of the polyolefin resin; (d)compacting the particulate mixture to increase contact between the particles; and (e) lowering the temperature of the particulate mixture below the melting point of the polyolefin while maintaining point bond formation conditions.

In the Claims:

Please amend the claims by canceling Claims 16 and 17 without prejudice as reflected in the "Listing of Amended Claims" which follows on pages 3-4 of this paper.
